

TYRANNY WITHOUT REPRESENTATION

11/20/2009

Months ago the Congress passed a piece of legislation (the Stimulus Bill) of over 1500 pages. Congress was not even allowed to read the bill because of the urgency to stimulate the economy. Because the bill had more pages than the Bible, few people could have read and evaluated the contents of the Stimulus Bill, even if they had a month to study it. In addition to totally unrestrained spending, the bill created many more government agencies with vastly increased powers. Months later, we still don't know the extent of control these government agencies will exercise over individual freedom or the power it gives to politicians to punish political dissent, extort political support and reward political cronies. The Congress that voted for this bill had no idea of its content or the extent to which it attacked our liberty.

Flushed with victory, the "WANNABE PEERS" introduced a new piece of legislation (labeled HEALTH CARE REFORM) totaling over 2000 pages which is scheduled for a vote in the Senate this Saturday (11/20/2009). Does anyone know the extent to which this monstrosity affects our individual liberty or the economy? Probably not, it was introduced earlier this week with, not enough time to even read it, much less evaluate the consequences of its passage.

When the members of Congress vote for legislation without knowing the content of that legislation it is:

TYRANNY WITHOUT REPRESENTATION!!!!!!!

You should be outraged by the lack of responsibility of our elected representatives and you will be when you find out what they have done.

It is not enough to ask your Senator to vote against this new assault on our freedom.

YOU MUST DEMAND THAT THE "STIMULUS BILL" BE REPEALED AND THE LEADERSHIP OF BOTH HOUSES OF CONGRESS BE CHANGED!

If the "HEALTH CARE REFORM BILL" is passed, a new several thousand page piece of legislation restricting the use of energy and totally destroying your standard of living will be introduced. But by that time it won't make any difference, the **AMERICAN REVOLUTION** will be history.

WELCOME BACK TO THE "MIDDLE AGES"!!!!!!!!!!!!!!!!!!!!!!
